Nemus Collection  
2026

Designed & Produced by:  
Gaël Le Thellec

# ABOUT ME

Gaël Le Thellec, Gawood, is an artist and craftsman passionate about wood. Having been graduated in wood carving from the Boule school in 2007 in Paris, i opened my workshop in 2016. There, i created unique works and custom work for designers, interiors architects or individuals. I can respond to any custom woodcarving works.

In permanent admiration of nature, i explores in my sculptures the details of plants and animal kingdoms, transcribing the beauty and magic of the wild world. My work is a highlighting to the splendor of our environment.

I do not limited my self to a single mode of expression, mixing techniques and materials, crossing the professions of artistic craftsmanship to bring out works of great finesse and remarkable singularity.
